

You know I knew this day would come when the Local Radio stations and the government saw the public enjoying themselves. XM radio is AWESOME! NO COMMERCIALS should i say any more. Local Radio stations only play the same songs over and over and over again and when it's time for commercials it's all about Car sales Car sales and more car sales. That's why people are are tuning into XM radio. They don't have any of the nonsense not only that but they play amazing music which I've never heard and it's not played that often meaning i get to hear something new all the time. There are so many things in the world you guys should be worrying about. There is a war going on why don't you guys focus on that first or focus about the innocent people around the world who are starving. Local Radio stations want to ban XM beacuse all their money comes from advertisment. That is pure selfishness. I'm tired of Local Stations I never even listened to them when I didn't have XM. Besides, to my understanding I believe there is a dedicated station specifically for weather and traffice so if someone really needs some info regarding that then they can tune in anytime they want for example I live in miami fl so I can tune to channel 230 Miami/ FT. Lauderdale, FL. I tune in from time to time. It doesn't take a genius to find the station so stop bugging us already. XM YOU ARE AWESOME and thanks for your services.
